I am an ASP.NET Core developer with expertise in Entity Framework and Identity Framework, specializing in secure user authentication and efficient data management. My backend skills extend to SQL Server and LINQ, enabling me to build robust and scalable applications. Alongside backend development, I am proficient in responsive front-end web design, ensuring seamless user experiences across devices. With a comprehensive approach to full-stack development, I deliver dynamic, secure, and user-friendly web solutions.

Experience

Asp.Net Core Developer | Yozae

2023- 2024

- Develop and maintain web applications using ASP.NET Core, with a focus on Entity Framework and Identity Framework.
- Implement secure user authentication and authorization, ensuring robust access control and data protection.
- Design and optimize responsive interfaces for seamless user experiences across devices.
- Manage and optimize MySQL databases for high performance and scalability.
- Assisted the creative team to create a visually appealing website.
- I excel at crafting responsive, visually appealing web applications, and I'm highly proficient in MySQL for efficient database management.

Laravel Developer | IT Vision

2023

- Designed and developed web applications using the Laravel framework, ensuring clean and maintainable code.
- Integrated various third-party APIs and services to enhance application functionality.
- Worked closely with clients to understand requirements and deliver tailored solutions.
- Implemented database management and optimization using MySQL.
